

### **Oracle Java at Bytes People Solutions:**

Bytes People Solutions, a leading provider of Oracle Java training in South Africa understands the complexity of the development environment as well the business impact of moving to the cloud. In line with these requirements Bytes People Solutions has released a new curriculum for delegates interested in Oracle Java.

The curriculum consists of face to face (also referred to instructor-led training) as well as digital learning.

### **Delivery Format:**

This implies that the training will be delivered by an instructor in a Bytes People Solutions classroom.

Oracle Public Cloud using an Oracle Cloud Learning Subscription. The Oracle Cloud Learning Subscription provides 24/7 access to complete training content delivered by product experts.

## Training curriculum

### Core Java Language Skills

Java SE 8 Fundamentals

This **Java SE 8 Fundamentals** training enables those with little or no programming experience to learn object-oriented programming using the Java language. It provides a solid foundation to build upon throughout your software development career.

Java SE 8 Programming

This Java SE 8 Programming training covers the core language features and Application Programming Interfaces (API) you will use to design object-oriented applications with Java Standard Edition 8 (Java SE 8) Platform. Use this course to further develop your skills with the Java language and prepare for the Oracle Certified Professional, Java SE 8 Programmer Exam

### Object Orientation and Design skills

Object-Oriented Analysis

The Object-Oriented Analysis and Design Using UML training explores the software development processes, object-oriented technologies and the Unified Modeling Language (UML). Learn one practical, complete, object-oriented analysis and design (OOAD) roadmap from requirements gathering to system deployment.

### JSP and Web Services

Java EE 7: Front-end Web Application Development

This Java EE 7: Front-end Web Application Development training helps you explore building and deploying enterprise applications that comply with the Java Platform, Enterprise Edition 7 Web Profile. Expert Oracle University instructors will help you explore annotations, Session Enterprise JavaBeans (EJB-Lite), Java Persistence API (JPA), servlets, JavaServer Pages (JSPs), Contexts and Dependency Injection (CDI), JAX-RS RESTful web services, the Java API for WebSocket and the Java API for JSON processing.

### Build and deploy rich application, whilst extending Oracle Cloud SaaS

Java Cloud Complete Edition

- Create and manage a Java Cloud Instance
- Develop and deploy applications in the Cloud
- Migrate an existing application to Oracle Java Cloud Service
- Administer the Java Cloud Service and Load Balancer
- Extend the Java Cloud Service with Frameworks
- Configure WebLogic Server security
- Secure your applications and Web Services
- Tune a cloud-deployed application

Cost- please take note all cost excludes VAT.

Course Name	Duration in days	Cost per person
Java SE 8 Fundamentals	5	R 12 000.00
Java SE 8 Programming	5	R 12 000.00
Object-Oriented Analysis and Design Using UML	5	R 12 000.00
Java EE 7: Front-end Web Application Development NEW	5	R 17 500.00
Java Complete Cloud Edition	Not applicable	R 11 220.00 per named user (minimum of five)

Please contact Bytes People Solutions for more information regarding other costing models including private events or a volume based discounting model.

Kind Regards
